## EDENE, an incubator of talent and innovation for international doctoral students involved in Energy and the Environment

### Why undertake an EDENE PhD?

- To be a player in the societal challenges of energy transition, sustainability, efficiency of resources and raw materials in all fields of research (geosciences, mathematics, biology, economics, law, IT...).
- Benefit from high quality training and research guaranteed by the expertise of the UPPA Research Laboratories and their global network via a 3-year contract.
- Collaborate with partners, international leaders in Energy and the Environment.
- Benefit from dedicated support from reception to professional integration.

### EDENE by the numbers

**30 doctoral students** selected in three cohorts of 10 doctoral students  
36 months of financing per PhD

**EDENE program duration:** 5 years (2021-2026)

**EDENE PhD Budget:** ≈ € 1,580 monthly net entry salary (before income taxes) + Mobility allowance 1 000 €

**Total program budget:** 4,6 M€, including 2,4 M€ from the European Commission

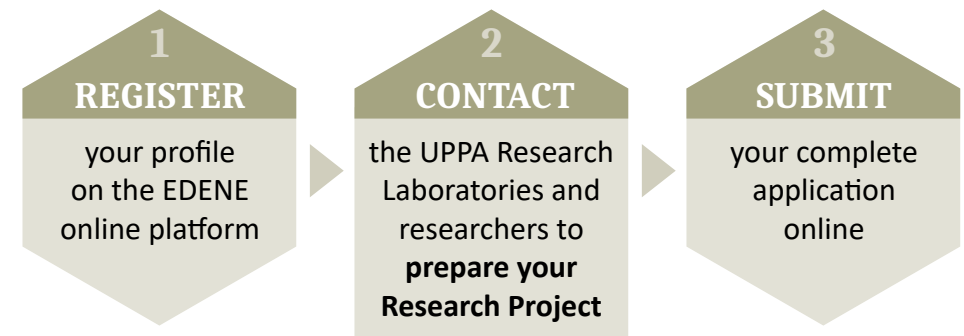

**9 public and private partners**

### Who can apply ?

Candidates in possession of a Master's degree or equivalent in the 3 years preceding the date of application and having spent less than 1 year in France during the last 3 years.

### How to apply?

10 highly-skilled international doctoral students will be recruited per year in 2021, 2022, & 2023, through a rigorous and fair recruitment process via involved committees and expert evaluations.

Application information is available on the EDENE website:  
<https://www.univ-pau.fr/edene>

### When to apply?

- 1 January** Submission of the Research project on the E2S Platform
- 2 End of March** Deadline for application
- 3 April-June** Evaluation and selection process by successive committees
- 4 June** Official announcement of the results
- 5 September** Starting date of the 3-year PhD contract
